**TUNABLE ANTENNA for
COLLINS NOISE BLANKER**

MODEL NB-40 (40 MC)

Similar in appearance to MODEL CB-27. Has different electrical characteristics. Broad banding characteristics and tunable feature permits attenuation of power line and car ignition noises.

Complete line of stainless steel whips with set screw type removable adaptors, other antenna models, cable and accessories available for immediate delivery.

New-Tronic antennas look better, work better and last longer than any similar purpose types now available. They are engineered and built to meet the demands of modern communications. With all their extra features they are priced no higher than similar models. See them at your electronic distributors or write for literature.
